All information provided herein is for informational purposes only and should not be deemed as a recommendation to buy or sell any security mentioned. Pershing Square Capital Management, L.P. (“Pershing Square”) believes this presentation contains a balanced presentation of the performance of the portfolio it manages, including a general summary of certain portfolio holdings that have both over and under performed our expectations.

This presentation contains information and analyses relating to all of the publicly disclosed positions over 50 basis points in the portfolio of Pershing Square Holdings, Ltd. (“PSH” or the “Company”) during 2020. Pershing Square may currently or in the future buy, sell, cover or otherwise change the form of its investments discussed in this presentation for any reason. Pershing Square hereby disclaims any duty to provide any updates or changes to the information contained herein including, without limitation, the manner or type of any Pershing Square investment.

Past performance is not necessarily indicative of future results. All investments involve risk including the loss of principal. It should not be assumed that any of the transactions or investments discussed herein were or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the investments discussed herein. Specific companies or investments shown in this presentation are meant to demonstrate Pershing Square's active investment style and the types of industries and instruments in which we invest and are not selected based on past performance.

The analyses and conclusions of Pershing Square contained in this presentation are based on publicly available information. Pershing Square recognizes that there may be confidential or otherwise non-public information in the possession of the companies discussed in the presentation and others that could lead these companies to disagree with Pershing Square's conclusions. The analyses provided include certain statements, assumptions, estimates and projections prepared with respect to, among other things, the historical and anticipated operating performance of the companies. Such statements, assumptions, estimates, and projections reflect various assumptions by Pershing Square concerning anticipated results that are inherently subject to significant economic, competitive, legal, regulatory, and other uncertainties and contingencies and have been included solely for illustrative purposes. No representations, express or implied, are made as to the accuracy or completeness of such statements, assumptions, estimates or projections or with respect to any other materials herein. Any forward-looking statement contained in this presentation is subject to various risks and uncertainties. PSH Board Additional Matters Considered in 2020

- Share repurchases
- Dividend policy
- COVID impact on portfolio and operations of investment manager
- Q1 2020 CDS hedge position
- Pershing Square Tontine Holdings, Ltd. (SPAC)
- Bond issuances
- FTSE 100 inclusion
Overview of 2020 Performance

2020 was an outstanding year for PSH with NAV appreciation of 70.2% and a total shareholder return of 84.8%¹

PSH NAV Performance, PSH and S&P 500 Total Shareholder Return and Discount to NAV | 12/31/2019 – 12/31/2020:

PSH’s discount to NAV narrowed by 5.9% from 28.9% in the beginning of 2020 to 23.0% as of February 16, 2021

(¹) Based on public shares traded on Euronext Amsterdam (PSH:NA).
In 2020, PSH completed two new bond issuances, raising a total of $700 million in additional capital at highly attractive interest rates.

**PSH’s long-term debt management strategy is focused on managing leverage over time by increasing NAV through strong performance and laddering its maturities through new issuances.**

Note: Total Assets and the ratio of Total Debt to Total Assets are calculated in accordance with the PSH Bonds’ Indentures. Total Assets is defined as Net Asset Value plus Total Debt and is net of accrued performance fee.
In periods of market and/or portfolio volatility, PSH has continuously maintained conservative leverage levels and investment grade ratings.

Total Debt to Total Assets Ratio | 6/30/2015 to 2/16/2021:

- **6/26/15:** Issued $1,000mm of 5.500%, 7-Year Unsecured Bonds Due 2022
- **7/25/19:** Private placement of $400mm of 4.950%, 20-Year Unsecured Bonds Due 2039 with Guggenheim Partners
- **11/2/20:** Issued $500mm of 3.250%, 10-Year Unsecured Bonds Due 2030
- **8/26/20:** Private placement of $200mm of 3.000%, 12-Year Unsecured Bonds Due 2032 with Guggenheim Partners
Long-Term Debt Financing Strategy

Our ability to access low-cost, investment grade, long-term debt is an important competitive advantage for PSH

✓ PSH has attractive credit characteristics
  - Simple, transparent and highly liquid investment portfolio
  - Significant asset coverage: PSH debt is covered >5x by assets
  - Underlying portfolio companies are diversified across industries and have relatively low commodity exposure and cyclical risk
  - Proven investment strategy with a long-term track record
  - Facilitates opportunistic issuances

✓ Laddered maturities ranging from 2022 to 2039 are well matched with PSH’s long-term investment horizon

✓ No margin leverage

✓ No mark-to-market covenants
2020 Corporate Actions: Return of Capital

In 2020, PSH returned $367 million of capital through its quarterly dividend and opportunistic share buybacks

- **Continued quarterly dividend**
  - Quarterly dividend of $0.10 per share, a 1.1% yield at the current PSH share price\(^1\)
  - $81 million of capital returned

- **Opportunistic share buybacks**
  - Executed $286 million of share buybacks
  - Generated $134 million in accretion for a 2.4% contribution to 2020 returns
  - Retired 6.6% of public shares in 2020

- **Factors considered regarding return of capital**
  - Other uses of cash and potential return on capital
  - Accretion from share repurchases at a discount
  - Impact on free float
  - Impact on discount

\(^1\) PSH:NA share price of $37.80 as of February 16, 2021.
2020 Corporate Actions: Share Buyback Programs

Over the course of 2020, PSH repurchased $286 million in stock

PSH buybacks and purchases by PSCM affiliates have reduced the free float by 37%³ since the IPO. Today, PSCM affiliates own approximately 25% of PSH on a fully diluted basis⁴

---

¹ Reflects public shares outstanding as of January 1, 2020 for 2020 share buybacks and public shares outstanding as of April 30, 2017 for cumulative shares repurchased since inception.
² PSH:NA share price of $37.80 as of February 16, 2021.
³ Free float refers to the number of public shares not owned by PSCM affiliates.
⁴ As of February 16, 2021. Represents the share ownership of PSH held by William Ackman, Nicholas Botta and other PSCM affiliates, assuming full exercise by their terms of all option contracts held by such parties referencing PSH shares.
Because of strong NAV and stock price performance, PSH was added to the FTSE 100 index on December 21, 2020

- The FTSE 100 index seeks to represent the 100 largest companies listed on the London Stock Exchange

- Inclusion in the FTSE 100 index is a materially positive catalyst for PSH
  - Increases demand for PSH shares by index funds who are required by their investment mandates to purchase the stock
  - Highlights PSH’s investment story and undervaluation relative to other index constituents
  - Enhanced visibility should contribute to reduced discount to NAV

Pershing Square’s Strategy Has Proven to be Defensive in Down Markets

PSLP / PSH Average Monthly Net Returns vs. S&P 500 through December 31, 2020

Note: Data represents returns an investor would have earned by investing in PSLP at its January 1, 2004 inception and converting to PSH at its launch on December 31, 2012. Past performance is not necessarily indicative of future results. All investments involve the possibility of profit and the risk of loss, including the loss of principal. Please see the additional disclaimers and notes to performance results at the end of this presentation.
Strong Performance During the Global Financial Crisis

During the Global Financial Crisis, from December 2007 to June 2009¹, PSLP outperformed the S&P 500 by 3,200 basis points.

PSLP Indexed Net Return vs S&P 500 | 11/30/2007 to 6/30/2009:

March 2009 peak losses:
S&P 500: 52.9%
PSLP: 18.2%

(1) Duration of the Global Financial Crisis as defined by the U.S. National Bureau of Economic Research
Note: Past performance is not necessarily indicative of future results. All investments involve the possibility of profit and the risk of loss, including the loss of principal. Please see the additional disclaimers and notes to performance results at the end of this presentation.
Strong Performance During the COVID Crisis

PSH delivered strong 2020 performance with a net return of 70.2%, outperforming the S&P 500 by 5,180 basis points

PSH Indexed Net Return vs S&P 500 | 12/31/2019 to 12/31/2020:

During both equity bear markets since the firm’s inception, Pershing Square significantly outperformed the S&P 500 principally due to hedging-related gains and investments in high-quality, durable, growth companies

Note: Past performance is not necessarily indicative of future results. All investments involve the possibility of profit and the risk of loss, including the loss of principal. Please see the additional disclaimers and notes to performance results at the end of this presentation.

Business and Organizational Update
2020 Key Developments

Our ability to act quickly and decisively on key insights throughout the year resulted in the strongest annual returns in Pershing Square’s history

✓ Initiated a hedging program in the index CDS markets in late February

✓ Invested hedging gains at deeply discounted prices

✓ Launched Pershing Square Tontine Holdings (“PSTH”)

✓ Continued constructive engagement across our portfolio

Focused investment-centric organization is performing at highest levels
In late February, we acquired large notional CDS index hedges to protect our portfolio against losses in a severe market decline.

CDS Index Hedge Summary (2/24 - 3/23)

<td></td>
<td></td>
</tr>
</tbody>
</table>

In the aggregate, the hedges\(^1\) generated over $2.6bn in proceeds across the Pershing Square funds while incurring $27mm in carrying costs.

\(^1\) Refers specifically to the CDS index hedges initiated in late February / early March. Subsequent to the February-March hedging program, Pershing Square has maintained smaller positions in CDS index hedges throughout various periods in 2020 and 2021 year-to-date. In addition, Pershing Square has initiated interest rate swaption hedges in late 2020 / early 2021.
CDS Index Hedges Offered Asymmetric Upside

Initiating the hedges\(^1\) when they were trading near all-time tight levels offered an asymmetric profit opportunity with limited potential for losses.

CDS Index Spread Levels | 1/1/2008 to 4/30/2020:

2/24/2020: CDX IG, ITRAXX Main and CDX HY were all trading near their lowest spread levels since the Global Financial Crisis when Pershing Square began acquiring notional exposure.

(1) Refers specifically to the CDS index hedges initiated in late February / early March. Subsequent to the February-March hedging program, Pershing Square has maintained smaller positions in CDS index hedges throughout various periods in 2020 and 2021 year-to-date.
Unwind of CDS Index Hedges

By mid-March, our CDS index hedges\(^1\) had appreciated substantially in value and, along with cash, represented 49% of NAV

![Market Value of PSH Assets by Position | 2/3/2020 to 3/12/2020:](chart)

3/12/20: PSH’s hedge value increased to $2.0bn to become our largest position at 34% of NAV

3/12/20: Value of long portfolio down 31% since the beginning of February

As governments and various institutions mobilized to contain the spread of COVID-19 and our outlook on a potential recovery improved, we began unwinding our hedges on March 12, 2020

---

\(^1\) Refers specifically to the CDS index hedges initiated in late February / early March. Subsequent to the February-March hedging program, Pershing Square has maintained smaller positions in CDS index hedges throughout various periods in 2020 and 2021 year-to-date.
Redeployment of Hedging Gains

Immediate reinvestment of hedging gains allowed us to increase our exposure to high-quality businesses we understood well at deeply discounted prices.

----------

(1) Realized & unrealized value and cumulative return reflect dividends received. Cumulative return is calculated using average cost of purchases during reinvestment period and closing share price on February 16, 2021. Current unrealized value of HHC excludes impact of FIRPTA tax liability.

(2) Represents various equity purchases during this timeframe that were sold by mid-May.
Pershing Square Tontine Holdings ("PSTH")

In July, PSCM launched Pershing Square Tontine Holdings ("PSTH"), the world’s largest special purpose acquisition company ("SPAC")

Publicly traded company with $5 billion to $7 billion of equity capital

- Raised $4 billion in its July 22nd IPO on the New York Stock Exchange
- The Pershing Square funds entered into a forward purchase agreement ("FPA") to invest a minimum of $1 billion at the IPO price
  - Additional FPA to invest a further $2 billion at the option of the funds

PSTH creates a unique opportunity for the Pershing Square funds

- Enables the funds to purchase a large stake in a previously private business
- The Sponsor Warrants are 100% owned by the Pershing Square funds
  - Unlike other SPACs, no founder shares accrue to individual promoters
  - Pershing Square’s management team and affiliates are the largest investors in its funds, and will indirectly own roughly one-fourth of the funds’ investment in PSTH
Including pro-rata distributed warrants, PSTH appreciated 44% from its IPO through December 31, 2020, and increased 21% year-to-date in 2021.

PSTH price performance from 7/21/2020 to 2/16/2021:

7/21/20: PSTH prices IPO at $20.00 per unit. Each unit consists one share, one-ninth of a Distributable Redeemable Warrant, and the right to receive additional Tontine Warrants.

9/11/20: Each PSTH unit separated into one share and one-ninth of a Distributable Redeemable Warrant, which began trading separately.

Note: The performance of PSTH unit, share, and warrant prices is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

(1) As of 2/16/2021.
(2) Right to receive additional Tontine Warrants remains with the shares.
(3) Reflects the PSTH unit price prior to September 11, 2020 and the PSTH share price plus the price of one-ninth of one distributable redeemable warrant from that date onwards.

IPO Price: $20 per unit
Organizational Update

Highly resilient and focused organization seamlessly navigated the impact of COVID-19 with no business disruption

- **Seamless transition to a virtual work environment**
  - Entire team of 39 employees has been working from home office set-ups since late February 2020
  - Coordinated with key service providers to maintain business continuity
  - Targeting a full return to our headquarters as soon as practicable

- **Manning Feng will be joining the Investment Team in September 2021**
  - Warburg Pincus, Private Equity Associate (2019 – Present)
  - B.S.E., The Wharton School, summa cum laude, 2016

- **Alexandra Kosslyn will depart this year to pursue other interests after a 17-year career in investor relations at Pershing Square**

Lowe’s (“LOW”) is a high-quality business with significant long-term earnings growth potential.

COVID crisis significantly boosted Lowe’s business:

- Unprecedented demand across the sector driven by consumer nesting, higher home asset utilization and a reallocation of discretionary spend
  - Critical technology and ecommerce investments allowed Lowe’s to react amidst a highly volatile operating environment and take market share
- Comparable sales growth of >20% since the beginning of the pandemic
- Lowe’s invested >$1 billion in special associate support, community donations and enhanced store safety

Revised long-term outlook implies significant earnings appreciation:

- New long-term revenue productivity and operating margin targets
  - Revised medium-term EBIT margin target of 13% vs. Home Depot’s normalized margin of ~14.5%
- New targets imply $13 to $15 of earnings per share over the next few years

Multi-year business transformation with substantial earnings upside

Source: Company filings
LOW’s share price including dividends increased 36% in 2020 and increased 9% year-to-date in 2021

LOW’s share price performance from 4/6/2018 to 2/16/2021:

*Average cost at announcement date. Please see the additional disclaimers and notes to performance results at the end of the presentation.

(1) As of 2/16/2021.
Digital has powered Chipotle’s sales growth back to pre-COVID levels

- Same-store sales grew 6% last quarter, or 20% on a two-year stacked basis
  - Digital has driven ~50% of sales mix since July, up from 20% pre-COVID
  - Differentiated results given no previous dependence on drive-thru or delivery
- Momentum has accelerated even further in 2021
  - January same-store sales growth of 11%, or 24% on a two-year stacked basis

We believe Chipotle will emerge even stronger in a post-COVID world

- Further recovery of in-store sales as the economy reopens
- Robust innovation pipeline including the digitally enabled quesadilla
- Major step-up in unit growth in 2021, with Chipotlanes in most new units
- Loyalty program with nearly 20 million members
- Margin recovery as COVID-related impacts fade and sales grow

Source: Company filings
CMG Share Price Performance Since Inception

CMG’s share price increased 66% in 2020 and increased 7% year-to-date in 2021.

CMG share price performance from 8/4/2016 to 2/16/2021:

- **9/6/16:** Pershing Square files 13D after market close with a 9.9% stake
- **12/16/16:** CMG announces four new directors added to its board, including Ali Namvar and Matthew Paull from Pershing Square
- **12/12/16:** Steve Ells named sole CEO; founder Steve Ells to become Executive Chairman
- **11/29/17:** CMG announces search for new CEO; founder Steve Ells to become Executive Chairman
- **3/12/19:** Loyalty program launched
- **2/6/19:** CMG reports Q4’18 earnings including a return to transaction growth
- **4/21/20:** CMG holds Q1’20 earnings call, noting peak digital sales mix of nearly 70% in April
- **2/13/18:** CMG names Brian Niccol as CEO
- **4/25/18:** CMG reports Q1’18 earnings and hosts first call with Niccol

Note: The performance of CMG’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

(1) As of 2/16/2021.
Agilent (“A”)  

**Agilent’s resilient results through the COVID crisis are demonstrative of its durable business model and significant margin expansion opportunity**

**Revenue growth and improved profitability under a challenging backdrop**

- Delivered 1% organic growth and increased EBIT margins by 20bps in FY ‘20
  - Achieved cost savings without furloughing a single employee
- Sales momentum is accelerating with 11% organic growth last quarter

**Focused on offensive initiatives and digital transformation**

- Emphasis on new product launches is driving market share gains
- Transition to online engagement channels and digital tools is a “win-win”
  - Remotely responding to customer service requests and sales inquiries in a timely and reliable manner has resulted in record high customer satisfaction scores
  - Digital capabilities facilitate more efficient internal operations

**2020 Analyst Day highlights growth acceleration & margin opportunity**

- Management significantly raised long-term guidance from prior Analyst Day
  - Targeting organic growth of 5% to 7% and margin expansion of up to 100bps p.a.

Source: Company filings
Agilent’s share price including dividends increased 40% in 2020 and increased 8% year-to-date in 2021\(^1\)

A share price performance from 9/4/2019 to 2/16/2021:

11/25/19: Agilent reports FY ’19 earnings with organic revenue growth of 5% and EPS growth of 11% despite a temporary slowdown in instrument sales

12/9/20: Agilent hosts Analyst Day and raises long-term revenue growth and margin expansion targets

11/23/20: Agilent reports highly resilient FY ’20 earnings with 1% organic revenue growth, 20bps of EBIT margin improvement and 6% EPS growth

12/9/19: Pershing Square announces investment in Agilent

Note: The performance of Agilent’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

*Average cost at announcement date. Please see the additional disclaimers and notes to performance results at the end of the presentation.

**Hilton Worldwide ("HLT")**

<table>
<thead>
<tr>
<th>Hilton’s superb management team and unique asset-light business model enabled the company to navigate extraordinary market conditions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>COVID triggered an unprecedented industry shock</strong></td>
</tr>
<tr>
<td>- Worldwide lockdowns and stay-at-home restrictions catalyzed a precipitous drop-off in hotel occupancy; occupancy bottomed in Q2 and is now recovering</td>
</tr>
<tr>
<td>- Hilton full-year comparable revenue growth (&quot;RevPAR&quot;) of negative 57%</td>
</tr>
<tr>
<td><strong>HLT undertook decisive actions to insulate the business</strong></td>
</tr>
<tr>
<td>✓ Proactively fortified HLT’s balance sheet, but did not need to raise equity capital</td>
</tr>
<tr>
<td>✓ Rationalized costs and capital expenditures resulting in only modest cash burn</td>
</tr>
<tr>
<td><strong>HLT is positioned for enhanced performance when conditions normalize</strong></td>
</tr>
<tr>
<td>✓ Market share likely to increase over time given independent hotels’ desire to seek affiliation with global brands</td>
</tr>
<tr>
<td>✓ Committed to higher long-term structural margins given productivity actions</td>
</tr>
<tr>
<td>✓ Robust cash balance allows for substantial capital return over time</td>
</tr>
</tbody>
</table>

*Hilton is in the early stages of a multi-year recovery which we believe will deliver long-term earnings meaningfully greater than pre-2020 levels*

*Source: Company filings*
HLT’s share price including dividends was flat in 2020 and increased 2% year-to-date in 2021\(^1\)

**HLT share price performance from 10/8/2018 to 2/16/2021:**

- 2/13/19: HLT reports strong earnings and modifies adjusted EPS to more closely align with economic earnings
- 10/23/19: HLT issues preliminary 2020 guidance
- 6/16/20: Hilton announces additional SG&A reductions
- 3/10/20: Hilton withdraws 2020 outlook given economic uncertainty
- 3/11/20: Hilton draws down $1.75bn credit line
- 3/26/20: Hilton furloughs corporate employees, eliminates non-essential expenses
- 11/4/20: Hilton reports Q3 results which include improving RevPAR trends and outperformance in net unit growth

Note: The performance of HLT’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

(1) As of 2/16/2021.
QSR’s high-quality franchised business model enabled it to navigate extraordinary market conditions while maintaining its long-term growth potential.

Management undertook decisive actions to strengthen the business:

- Supported franchisees with deferrals and liquidity programs.
- Accelerated digital investments by expanding delivery footprint, modernizing drive-thru experience, driving mobile app adoption, and improving loyalty programs.

Comparable sales have already recovered or are well on their way to recovery:

- Burger King U.S. returned to positive growth in January.
- Tim Hortons Canada improved to a high-single-digit decline in December.
- Popeyes U.S. returned to pre-COVID levels within weeks and increased +16% in 2020.

We believe QSR will emerge even stronger in a post-COVID world:

- Competitively advantaged in a more budget-conscious and socially-distant environment with robust drive-thru, digital and delivery options.
- Return to historical mid-single-digit unit growth in 2021 and beyond.

As underlying sales trends continue to improve, QSR’s share price should more accurately reflect our view of its business fundamentals.

Source: Company filings
QSR Share Price Performance Since Inception

QSR’s share price including dividends decreased 1% in 2020 and decreased 3% year-to-date in 2021¹

QSR share price performance from 6/19/2012 to 2/16/2021:

- **8/24/14:** QSR announces acquisition of Tim Hortons
- **2/1/17:** QSR announces acquisition of Popeyes
- **1/23/19:** QSR announces leadership transition, elevating Daniel Schwartz to Executive Chairman and Jose Cil to CEO
- **3/30/20:** Jose Cil releases open letter outlining key initiatives to weather the COVID-19 crisis

Note: The performance of QSR’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

*Average cost since it merged with Justice Holdings. Please see the additional disclaimers and notes to performance results at the end of the presentation.

(1) As of 2/16/2021.
Howard Hughes Corporation ("HHC")

**HHC’s transformation into a leaner and more focused organization enabled the company to successfully navigate the impact of COVID**

Acted quickly and decisively to stabilize the business

- Raised $600mm of equity in March 2020 to strengthen the balance sheet
  - Pershing Square funds invested $500mm
- Decentralized operating model reduced overhead expenses and allowed the MPCs to react more nimbly to a challenging environment

**HHC is on a path towards a strong recovery in 2021**

- MPC land sales benefit from move to suburbs and open spaces in lower-tax states like Texas and Nevada
- Retail and hospitality fundamentals are improving while office and multi-family rent collections remain highly resilient
- Appointed David O’Reilly, formerly CFO and President, as new CEO
- Appointed Jay Cross, formerly President of Hudson Yards, as new President
- Refinanced near-term debt maturities and maintained strong liquidity position

Source: Company filings
HHC Share Price Performance Since Inception

HHC’s share price decreased 38% in 2020 and increased 26% year-to-date in 2021.

HHC share price performance from 11/9/2010 to 2/16/2021:

- **6/27/19:** HHC announces its Board of Directors will be conducting a detailed review of strategic alternatives.
- **10/21/19:** HHC Board concludes review process and announces transformation plan.
- **12/1/2020:** Announces David O’Reilly as new CEO and Jay Cross as new President.
- **3/27/20:** HHC raises $600mm of equity at $50/share, including $500mm from Pershing Square, to stabilize its balance sheet.

Note: The performance of HHC’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

*Average cost at announcement date. Please see the additional disclaimers and notes to performance results at the end of the presentation.

(1) As of 2/16/2021.
Starbucks ("SBUX")

SBUX is already nearing a full sales recovery and should be a major beneficiary of a reopened global economy

Outstanding recent performance despite severe headwinds from COVID

- U.S. same-store sales declined only 5% last quarter and 2% in January
  - Successful migration of customer demand to drive-thru and digital
- China’s growth plan is firmly intact, with 600 stores set to open this year
  - Demise of Luckin Coffee improves competitive environment in China

The “great human reconnection” will further strengthen Starbucks

- Pent-up consumer demand for the “third place” experience
- Opportunity to regain sales driven by breakfast and commuting routines
- December investor day underscored management’s confidence
  - Increased long-term outlook for revenue growth, margins, and earnings growth

Pershing Square exited our initial investment in Starbucks in January 2020. We opportunistically repurchased a stake in the company during the March market downturn

Source: Company filings
SBUX’s share price including dividends increased 80% from our average cost at re-establishment of the position in March 2020 to December 31, 2020 and decreased 1% year-to-date in 2021

SBUX share price performance from 7/13/2018 to 2/16/2021:

Note: The performance of SBUX’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

*Average cost at announcement date of our re-established position in March 2020. Please see the additional disclaimers to performance results at the end of the presentation.

(1) As of 2/16/2021.
Fannie Mae (“FNMA”) and Freddie Mac (“FMCC”)

Fannie and Freddie are building capital through retained earnings as shareholders await a pivotal Supreme Court ruling.

Progress during Trump administration fell short of articulated goals:
- Capital rule finalized in November 2020 at 4.0% of assets and guarantees.
- PSPA¹ modification announced in January 2021 was a mixed bag:
  - Net worth sweep suspended until required capital is reached, increasing maximum capital retention from $45bn to over $300bn.
  - No recognition that Treasury’s Senior Preferred investment has been repaid.
  - Balance due to Treasury continues to increase for every dollar of capital retained.

Upcoming Supreme Court decision could be a game-changer:
- Oral arguments held December 9th with decision expected by June 2021.
- Court expected to rule on the lawfulness of the net worth sweep and the legality of FHFA’s structure.

We continue to view Fannie and Freddie as valuable perpetual options on their eventual exit from conservatorship due to their widely acknowledged irreplaceable role in U.S. housing finance.

(1) Preferred Stock Purchase Agreement.
FNMA and FMCC share prices decreased 23% and 22%, respectively, in 2020 and decreased 21% and 22%, respectively, year-to-date in 2021\(^1\)

FNMA and FMCC share price performance from 10/7/2013 to 2/16/2021:

- 5/5/14: Pershing Square presents investment thesis at Ira Sohn conference
- 9/30/14: US District Court ruling in Perry litigation
- 11/8/16: Donald Trump wins presidential election
- 2/21/17 US Court of Appeals ruling in Perry litigation
- 1/18/19: Press reports re. FHFA plan to end conservatorships
- 4/4/19: Mark Calabria appointed FHFA Director
- 9/6/19: Fifth Circuit ruling that NWS was beyond FHFA’s statutory authority
- 11/18/19: Capital rule finalized
- 12/9/20: Oral arguments before SCOTUS in Collins vs. Mnuchin
- 12/13/19: Court of Federal Claims denies government’s motion to dismiss

Note: The performance of FNMA’s and FMCC’s share prices is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds.

*Average cost at announcement date of $2.29 for FNMA and $2.14 for FMCC. Please see the additional disclaimers and notes to performance results at the end of the presentation.

(1) As of 2/16/2021.
Exited Positions
BRK’s share price decreased 15% since inception through our share sale in May 2020. We made the decision to sell the position to deploy the capital into more opportunistic investments.

BRK.B share price performance from 5/23/2019 to 5/7/2020:

2/15/20: BRK annual report highlights substantial appreciation in tangible book value, expanded cash balances and more robust pacing in share buybacks.

11/2/19: BRK’s cash balance rises to $128 billion.

5/2/20: BRK annual investor meeting. Buffett conveyed a very cautious tone on the short-to-medium-term economic outlook.

5/2/20: Q1 earnings reveal BRK was only a very modest net buyer of stocks in Q1, and a net seller in April amidst the market dislocation.

Note: The performance of BRK.B’s share price is provided for illustrative purposes only and is not an indication of future returns of the Pershing Square funds. *Average cost at announcement date. Please see the additional disclaimers and notes to performance results at the end of the presentation.
PSH NAV appreciation is calculated with respect to PSH’s Public Shares only. Results are presented on a net-of-fees basis. Net returns include the reinvestment of all dividends, interest, and capital gains from underlying portfolio companies and assume an investor has participated in any “new issues” as such terms is defined under Rules 5130 and 5131 of FINRA. Net returns also reflect the deduction of, among other things, management fees, brokerage commissions, administrative expenses and performance allocation fees (if any). Performance is based on the dollar return for the specific period, including any and all dividends paid by PSH, calculated from the beginning of such period to the end of such period. Where PSH’s performance is presented with that of PSLP, results also assume that an investor invested in PSLP at its inception on January 1, 2004 and converted to PSH at its inception on December 31, 2012. Depending on the timing of an individual investor’s specific investment in PSH and/or PSLP, net performance for an individual investor may vary from the net performance as stated herein. Performance data 2020 is estimated and unaudited. Past performance is not a guarantee of future results.

Total shareholder return for 2020 is calculated based on PSH’s Public Shares traded on Euronext Amsterdam. Calculated based on the Public Shares listed in GBP on the London Stock Exchange over the period from January 1, 2004 to December 31, 2020. PSH’s share price was adjusted by 75.5%. Calculated based on the Company’s Public Shares listed in USD on the London Stock Exchange, the Company’s share price increased by 84.2%. Performance is based on the return for the specific period, including any and all dividends paid by the company, calculated from the beginning of such period to the end of such period. Past performance is not a guarantee of future results.

PSH’s total debt to capital ratio is calculated in accordance with the “Total Indebtedness to Total Capital Ratio” under the PSH Bonds’ Indentures. Under the Indentures, the “Total Capital” reflects the sum of PSH’s NAV and its “Total Indebtedness”. Total Indebtedness reflects the total “Indebtedness” of PSH and any consolidated subsidiaries (excluding any margin debt that does not exceed 10% of the Company’s total capital), plus the proportionate amount of indebtedness of any unconsolidated subsidiary or affiliated special investment vehicle. As defined in the Indenture, “Indebtedness” reflects indebtedness (i) in respect of borrowed money, (ii) evidenced by bonds, notes, debentures or similar instruments or letters of credit (or reimbursement agreements in respect thereof), representing capital lease obligations, (iv) representing the differential and unpaid of the purchase price of any property or services (excluding accrued expenses and trade payables in the ordinary course of business) due more than one year after such property is acquired or such services are completed, (v) in respect of capital stock that is repayable or redeemable, pursuant to a sinking fund obligation or otherwise, or preferred stock of any of PSH’s future subsidiaries. Indebtedness does not include, among other things, NAV attributable to any management shares or hedging obligations or other derivative transactions and any obligation to return collateral posted by counterparties in respect thereto.

Since June 20, 2019, PSH has engaged in share repurchases whereby its buyback agent has repurchased Public Shares subject to certain limitations. Any positive impact on performance due to these share buybacks is reflected herein.

PSLP’s net performance results are presented as if it were the Pershing Square fund with the longest track record and substantially the same investment strategy to PSH. The inception date for PSLP is January 1, 2004. PSLP’s net returns for 2004 were calculated net of a $1.5 million (approximately 3.9%) annual management fee and performance allocation equal to 20% above a 6% hurdle, in accordance with the terms of the limited partnership agreement of PSLP then in effect. That limited partnership agreement was later amended to provide for a 1.5% annual management fee and 20% performance for the first 6% realized and distributed, effective January 1, 2004. In addition, in 2004 a separate limited partnership agreement, in 2004 the sole unaffiliated limited partner paid Pershing Square an additional $840,000 for overhead expenses in connection with services provided unrelated to PSLP which have not been taken into account in determining PSLP’s net returns. To the extent such overhead expenses had been included in fund expenses, net returns would have been lower.

The market indices shown in this presentation have been selected for purposes of comparing the performance of an investment in PSH with certain broad-based benchmarks. The statistical data regarding these indices has been obtained from Bloomberg and the returns are calculated assuming all dividends are reinvested. The S&P 500 Index is not subject to any of the fees or expenses to which PSH is subject, while the HFRX ED: Activist Index and HFRX Equity Hedge Fund Index are net of fees and expenses. The funds are not restricted to investing in those securities which comprise any of these indices; their performance may or may not correlate to any of these indices and the portfolio of the funds should not be considered a proxy for any of these indices. The volatility of an index may materially differ from the volatility of the Pershing Square’s portfolio. The S&P 500 is comprised of a representative sample of 500 U.S. large-cap companies. The index is an unmanaged, float-weighted index with each stock’s weight in the index in proportion to its float, as determined by Standard & Poor’s. The S&P 500 index is proprietary to and is calculated and disseminated by S&P Dow Jones Indices LLC, which has licenced use of such index to Pershing Square Management LLC and has also been licensed to use the S&P 500 by Standard & Poor’s Financial Services LLC. © 2021 S&P Dow Jones Indices LLC, its affiliates and/or its licensors. All rights reserved. The MSCI World Index is a broad global equity index that represents large and mid-cap companies across 23 developed markets countries, covering approximately 85% of the free float-adjusted market capitalization in each country. The HFRX ED: Activist index is composed of hedge fund strategies with greater than 50% of the portfolio in activist positions. Activist strategies included in the index may obtain or attempt to obtain representation of the company’s board of directors in an effort to impact the firm’s policies or strategic direction and in some cases may advocate activities such as division or asset sales, partial or complete corporate divestiture, dividend or share buybacks, and changes in management. The HFRX Equity Index is composed of hedge fund strategies typically investing at least 50% of the portfolio in short equity positions. Hedge Fund Research, Inc. is the sponsor and the source of the information on HFRX indices presented in this presentation. The HFRX ED: Activist Index and the HFRX Equity Index are being used under license from Hedge Fund Research, Inc., which does not approve of or endorse the contents of this presentation.

Pages 20-21 of this presentation reflect the contributors and detractors to the performance of the portfolio of PSH. Other than share buyback accretion and bond interest expense, positions with contributions or detractors to performance for 50 basis points or more are highlighted. Significant contributions or detractions to performance of less than 50 basis points are aggregated. The contributions and detractions to performance presented herein are based on gross returns which do not reflect redemptions of certain fees or expenses charged to PSH, including, without limitation, management fees and accrued performance allocation fees (if any). Inclusion of such fees and expenses would produce lower returns than presented here. In addition, at times Pershing Square may engage in hedging transactions to seek to reduce risk in the portfolio, including investments in specific hedges that do not relate to the underlying securities of an issuer in which PSH is invested. For each issuer, the gross returns reflected herein (i) include only returns on the investment in the underlying issuer and the hedge positions that directly relate to the securities that reference the underlying issuer (e.g., if PSH was long Issuer A stock and also purchased puts on Issuer A stock, the gross return reflects the profit/loss on the stock and the profit/loss on the (USD) put contract); (ii) exclude returns on positions that are long on the Issuer B stock and short on the Issuer A stock, which is the case here, but not on the B stock; and (iii) do not reflect the cost/benefit of portfolio hedges. Returns with respect to currency hedging related to a specific issuer is included in the overall performance attribution of such issuer. For all other currency derivatives, the long/short classification is determined by the non-USD leg of the derivative. For example, a long USD call/GBP put option position would be considered a short exposure, and a long USD put/GBP call option would be considered a long exposure. The contributors and detractors to the gross returns presented herein are for illustrative purposes only. The securities on this list may not have been held by PSH for the entire calendar year. All investments involve risk including the loss of principal. It should not be assumed that investments made in the future will be profitable or will equal the performance of the securities on this list.

Past performance is not indicative of future results. Please refer to the net performance figures presented on page 18.
Additional Disclaimers and Notes to Performance Results

Share price performance data takes into account the issuer’s dividends, if any. Share price performance data is provided for illustrative purposes only and is not an indication of actual returns of PSH over the periods presented or future returns of PSH. Additionally, it should not be assumed that any of the changes in shares prices of the investments listed herein indicate that the investment recommendations or decisions that Pershing Square makes in the future will be profitable or will generate values equal to those of the companies discussed herein. All share price performance data calculated “to date” is calculated through February 16, 2021.

Average cost basis is determined using a methodology that takes into account not only the cost of outright purchases of stock (typically over a period of time) but also a per share cost of the shares underlying certain derivative instruments acquired by Pershing Square to build a long position. “Average Cost” reflects the average cost of the position that has been built over time as of the “Announcement Date” which is the date the position was first made public.

The average cost basis for long positions has been calculated based on the following methodology:

(a) the cost of an outright purchase of shares of common stock is the price paid for the shares on the date of acquisition divided by the number of shares purchased;
(b) the cost of an equity swap is the price of the underlying share on the date of acquisition divided by the number of underlying shares;
(c) the cost of an equity forward is the reference price of the forward on the date of acquisition divided by the number of underlying shares;
(d) the cost of call options that were in the money at the time of announcement is (except when otherwise noted) (i) the option price plus the strike price less any rebates the Pershing Square funds would receive upon exercise divided by (ii) the number of shares underlying the call options;
(e) call options that are out of the money at the time of announcement are disregarded for purposes of the calculation (i.e., the cost of the options acquired are not included in the numerator of the calculation and the underlying shares are not included in the denominator of the calculation);
(f) the cost of shares acquired pursuant to put options sold by the Pershing Square funds, where the underlying stock was put to the Pershing Square funds prior to the time of announcement, is (i) the strike price of the put options paid when the shares were put to the Pershing Square funds less the premium received by the Pershing Square funds when the put was sold divided by (ii) the number of shares received upon exercise of the put options; and
(g) premium received from put options written by the Pershing Square funds where the underlying stock was not put to the Pershing Square funds, and the option was out-of-the-money at the time of announcement are included in the numerator of the calculation.

Past performance is not necessarily indicative of future results. All investments involve the possibility of profit and the risk of loss, including the loss of principal. This presentation does not constitute a recommendation, an offer to sell or a solicitation of an offer to purchase any security or investment product. Nothing contained herein constitutes investment, legal, tax or other advice nor is it to be relied on in making an investment or other decision. All information is current as of the date hereof and is not to be relied on in making an investment or other decision. All information is current as of the date hereof and is subject to change in the future.

Forward-Looking Statements

This presentation also contains forward-looking statements, which reflect Pershing Square’s views. These forward-looking statements can be identified by reference to words such as “believe,” “expect,” “potential,” “continue,” “may,” “will,” “should,” “seek,” “approximately,” “predict,” “intend,” “plan,” “estimate,” “anticipate” or other comparable words. These forward-looking statements are subject to various risks, uncertainties and other factors, accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. Should any assumptions underlying the forward-looking statements contained herein prove to be incorrect, the actual outcome or results may differ materially from outcomes or results projected in these statements. None of Pershing Square funds, Pershing Square or any of their respective affiliates undertakes any obligation to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by applicable law or regulation.

Risk Factors

Investors in PSH may lose all, or substantially all, of their investment in PSH. Any person acquiring shares in PSH must be a “qualified purchaser” as defined in the PSH Offering Memorandum. The following risks may affect Pershing Square and the PSH Fund:

- PSH is exposed to a concentration of investments, which could exacerbate volatility and investment risk;
- Activist investment strategies may not be successful and may result in significant costs and expenses;
- Pershing Square may fail to identify suitable investment opportunities. In addition, the due diligence performed by Pershing Square before investing may not reveal all relevant facts in connection with an investment;
- While Pershing Square may use litigation in pursuit of activist investment strategies, Pershing Square itself and PSH may be subject to litigation or regulatory investigation;
- Pershing Square may participate substantially in the affairs of portfolio companies, which may result in PSH’s inability to purchase or sell the securities of such companies;
- PSH may invest in derivative instruments or maintain positions that carry particular risks. Short selling exposes PSH to the risk of theoretically unlimited losses;
- PSH’s non-U.S. investments may be affected by fluctuations in currency exchange rates;
- Adverse changes affecting the global financial markets and economy may have a material negative impact on the performance of PSH’s investments;
- Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect PSH’s business, investments and results of operations;
- Pershing Square is dependent on William A. Ackman;
- PS Holdings Independent Voting Company Limited controls a majority of the voting power of all of PSH’s shares;
- PSH shares may trade at a discount to NAV and their price may fluctuate significantly and potential investors could lose all or part of their investment;
- PSH is exposed to changes in tax laws or regulations, or their interpretation; and
- PSH may invest in United States real property holding corporations which could cause PSH to be subject to tax under the United States Foreign Investment in Real Property Tax Act.
